To whom it may concern,

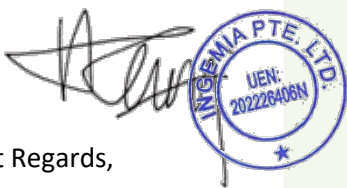

We are satisfied with the web design done by Websentials Pte Ltd. as it met our initial requirements and expectation.

From the very start, Websentials showcased its commitment to understanding our unique needs and translating them into an informational and functional website. Their expertise and attention to detail made the entire process smooth and enjoyable. They managed to capture the essence of our brand and deliver a website that aligns perfectly with our identity.

Websentials' s team is friendly and knowledgeable. Mr. Lionel helped us to explain the whole process clearly before commencement and deciding what we wanted for our website. The follow-up team especially Mr. Ben and Mr. James, has rendered outstanding service and helped to develop our website and respond to our questions and changes promptly.

Webessential has earned our trust, and we look forward to continuing our collaboration for future projects.

Any organization seeking a talented and dedicated website designing company should contact Websentials Pte Ltd for a discussion.

Best Regards,
Ms. Huang Fei
